

Youth Support Volunteer Opportunity

“Every Kid Is ONE Caring Adult Away from Being a Success Story.” - Josh Shipp

Do you enjoy:
being with people,
playing games and having fun,
being creative and crafty,
engaging in meaningful conversations,
and creating a welcoming place for others to belong?

You may even be looking for a place to develop leadership and mentoring skills?

You belong at Youth Unlimited Edmonton - investing in the lives of at-risk youth one conversation at a time.

Our afterschool drop-in centres are designed to create a space where all youth ages 12-18 are welcome. A space where you can bring your passions and skills and invest in youth who need to know there are adults who care.

As a relationally focused program, you and your presence matter. Youth are looking for a role model and leader like you. So if you want to take on a volunteer role with us, commitment is important. Relationships are built on stability.

If you are looking for a challenge, there may be opportunities to develop your own leadership skills by developing or leading small group programming like a mental health support group, or a leadership development program, anything that would align your passions with youth interests and needs and the YUE mission.

Check out our website <https://www.edmontonyouthunlimited.com> for more information or to access our volunteer application or email admin@yuedmonton.com

Time commitment: We would love to see you weekly at drop-ins during after-school hours (approx 3 hours), but we are flexible. (Also potential for lunch time or evening programs as well.)
